Name of Board you have an interest to serve on: Communications District E-911

What past experience and/or abilities do you possess that you feel would benefit the board you wish to serve on:

I have over twenty years of experience in public safety, with a focus on fire and emergency medical services. I currently serve as the Fire Chief for the Smiths Station Fire Protection District (SSFPD) and as Secretary/Treasurer of the Lee County Firefighters' Association (LCFA).

In these roles, I have developed a strong understanding of the operational, communication, and coordination challenges faced by fire and EMS agencies. I have worked to strengthen relationships between the SSFPD and our partnering agencies while improving internal operations to better meet the needs of our community.

Through my involvement with the LCFA, I have collaborated with Lee County fire departments to implement a digital records management system, ensuring compliance with NERIS requirements and improving data consistency across agencies.

I believe effective communication and strong interagency partnerships are essential to delivering high-quality public safety services. I would bring this perspective to the E911 Board and work to support coordination, improve system effectiveness, and ensure the needs of Lee County agencies and residents are met.

Additional comments you would like the Commission to consider for appointment:

I am proud to call Lee County Home and am committed to contributing to its continued success. I believe effective public service requires collaboration and a solution-oriented approach. I strive to provide practical, well-informed recommendations and work with others to ensure decisions are made in the best interest of the community.

MEMORANDUM:

TO: Lee County Commission
FROM: Justin Hardee, County Engineer
DATE: June 29, 2026
SUBJECT: Bridge Investment Program Grant Application - Justin Hardee

The Infrastructure Investment and Jobs Act appropriated \$2.487 billion in federal funds to be awarded by the US DOT for the FY 2023 Bridge Grant Program. In June of 2023, Lee County, along with 17 other counties in Alabama, entered into a joint application for a Planning Grant to ensure we are submitting feasible projects. That grant was awarded and we have worked with the consultant for that grant in preparing a joint application for this year's Notice of Funding Opportunity for a Bridge Investment Program Grant to replace our bridge over Webb Branch on Lee Road 072 (Farmville Road), just west of the Lee Road 188 intersection. The estimated project cost for this bridge replacement is \$750,000.00. The local match for the Bridge Investment Grant, if awarded, will be 25% (\$187,500.00).

The Highway Department will be presenting a resolution to commit to the local match at the commission meeting June 29, 2026, and request the Commission to authorize the Chairman to execute the enclosed resolution.

Enclosed: Resolution

Requested Action

**LEE COUNTY COMMISSION RESOLUTION TO PARTICIPATE IN THE JOINT
APPLICATION FOR THE BRIDGE INVESTMENT PROGRAM GRANT FUNDING
OPPORTUNITY**

WHEREAS, the Lee County Commission, Alabama (“County”) is committed to improving bridge conditions and the safety, efficiency, and reliability of the movement of people and freight over bridges; and

WHEREAS, the County desires to improve the condition of bridges it maintains through replacement, rehabilitation, preservation, or protection using potential funding available through the Federal Bridge Investment Program; and

WHEREAS, Title VIII of Division J of the Infrastructure Investment and Jobs Act (IIJA), Public Law 117-58, appropriated \$9,454,400,000 from the General Fund for Highway Infrastructure Programs (HIP) for Fiscal Year (FY) 2023 through FY 2026; and

WHEREAS, on May 14, 2026, the Federal Highway Administration (FHWA) issued Amendment No. 2 to the Notice of Funding Opportunity (NOFO), originally posted on December 20, 2023, for Fiscal Years 2023 through 2026 Bridge Project Grant Applications and Fiscal Years 2023 through 2026 Planning Project Grant Applications under the Bridge Investment Program; and

WHEREAS, the purpose of seeking a Bridge Investment Program Grant is to replace the 57-foot bridge over Webb Branch on Lee Road 72, BIN 009390, Structure No. 70X; and

WHEREAS, the County desires to participate in a joint application with Blount, Calhoun, Chambers, Cherokee, Chilton, Cleburne, Elmore, Jackson, Lamar, Lauderdale, Lee, Madison, Marion, Perry, Pike, Shelby, and Sumter Counties (the “Partnership”), to pursue funding through the Bridge Investment Program; and

WHEREAS, the County understands and agrees to the following:

1. The Partnership shall designate Lauderdale County as the Lead Applicant, serving as the primary point of contact for the grant application and as the administrator of the grant and any resulting grant funds.
2. Lauderdale County shall be authorized, on behalf of the County, to seek and acquire administrative services to assist with the project as authorized in the Bridge Investment Grant Program.
3. The estimated replacement cost of the County’s bridge project is \$750,000.
4. The County understands this is a reimbursable grant requiring a 25 percent local match. The County shall pay contractor invoices and seek reimbursement through the Lead Applicant.

5. The County shall be responsible for one hundred percent (100%) of any cost overruns associated with the construction of its project.
6. The County shall be responsible for preparing the plans and specifications for the project. The County will let the project locally and administer the project.
7. The County may retain engineering consulting services to assist with the project.
